FRUIT AND NUTS OF CAMEROON

PRACTICAL WAYS OF GROWING LOCAL FOOD PLANTS AND DOING IT WELL

A project of the Rotary Club of Devonport North and District 9830
www.foodplantsolutions.org
Hope for a better future (H4BF) cooperative society is a Cameroon youth led non-governmental, apolitical and non-denominational organization formed in 2009. H4BF’s mission is to create opportunities for growth and poverty reduction, so as to enhance sustainable development initiatives in the country.

H4BF, in its intervention strategies, seeks key partnership opportunities and networks to shape the evolution of food systems in Cameroon to end poverty and hunger amongst the rural poor, especially vulnerable groups including pregnant women and young children. H4BF adopts verified sustainable innovative agricultural practices with a special focus on climate-smart agriculture and building more inclusive and efficient food value chains. The partnership with Food Plant Solutions boosts the implementation of this key strategy and brings H4BF closer to achieving this goal.
Cameroon - a country of fabulous fruit

Pawpaw

Mandarin

Bush berry

Mango
Fruit tastes good and keeps us healthy

Everybody should eat some fruit every day.

Fruit provides minerals, vitamins and other important nutrients that everybody needs to stay healthy and well.

Good gardeners and farmers plant several kinds of fruit trees.
Fruit for hot humid climates

Fruit to be enjoyed by all.

Some grow quickly.

Some need to be planted for the future.

Many are seasonal.

Golden apple

Cape gooseberry

Pawpaw

Bush berry
Enjoy fruit to enjoy a good life

• Fruit adds flavour to life.
• Fruit is often rich in vitamins.
• Fruit makes good, quick snacks.
• Fruit is fun.

We are meant to enjoy the exciting flavours and textures of an amazing variety of tropical fruit.
Vitamin A in fruit

Vitamin A is very important for eyesight and fighting disease, particularly in infants, young children and pregnant women.

People who are short of Vitamin A have trouble seeing at night.

In plants, this chemical occurs in a form that has to be converted into Vitamin A in our bodies.
Vitamin C in fruit

Vitamin C is important for helping us to avoid sickness

- **Boabab**
- **Golden apple**

![Graph showing Vitamin C content in various fruits](image)
Caramabola
