

## Feedback 2021-2022

---

*Your materials have been used to train over 200 women in Cameroon and they learn about nutrition, the value of different crops, and grow the right crops to meet their nutritional needs. Other projects just train women to cultivate vegetables. Your material brings out the nutrition values in different crops and gives them the choice to decide to cultivate more of those that are high in nutrition. We don't just help women grow food. We make them understand the value before growing them. I think that is innovative.* **Hope for a Better Future, Program Partner, Cameroon**

*"The approach of Food Plant Solutions to provide science-based educational resources to achieve food and nutrition security at sustainable level is really important. Interestingly, when farmers integrating Agroecological methods for food production to mitigate climate change and also for food and nutrition security." I think there is a need for recognition of Food Plant Solutions approaches and work here in Solomon Islands.* **Solomon Islands Ministry of Agriculture and Livestock (MAL) personnel**

*"...not until reading through your website as well and your email then I realised that you are one of our very important developing partner in MAL. KGA has been our partner and it will be beneficial to this country if such organization like FPS can identify gaps and bottle necks that could be carefully assessed and addressed. We also recognised the importance of collaboration with partner Ministries such as Ministry of Health, Education and Climate change to seriously address sustainable food systems that are resilient and adaptable by farmers in the context of emerging issues and factors towards sufficient, safe and nutritious food. I look forward to more collaboration with you and hope we can identify specific priority areas to consider as together we can make some difference to achieving reducing NCDs & Malnutrition in SI."* **Solomon Islands Ministry of Agriculture and Livestock (MAL) personnel**

*Many thanks for sharing such an important resource. It is very useful material. I believe it is in public access and I can forward the link to my network.* **Dr Munawar R Kazmi Country Manager | Pakistan Australian Centre for International Agricultural Research**

*Many thanks for sending this through - very interesting and valuable. (received on receipt of field guides).* **'Andrew, Pacific Islands'**

*A big thank you for the access to these invaluable resources!* **Dr John Oakley PNG Sustainable Development Program Ltd.**

*This is great work!* **Alex Billy MUGAYI | Forest Landscape Restoration & Evergreen Agriculture Projects Manager | World Vision Rwanda**

*Wonderful what you do, a great contribution to end hunger!* **May-May Meijer, Chair Peace SOS The Netherlands**

*Thank you so much for your wonderful work. It is particularly vital in this time of chronic food insecurity across so many nations.* **Bethany Childrens Trust**

*Congratulations on the fantastic translations into Luganda and Lhukonzo of the excellent Uganda related documentation. They are very attractive and informative and I will use them in our microcredit farmer groups in Mubende, hoping to convince them to try some "new" crops rather than the ubiquitous maize, beans and cabbages. They are also very useful for the garden teachers in the schools.* **Maya Smeulders Abingdon Vesper Rotary Mubende Projects Coordinator**

*"These are wonderful Karalyn and I'm so excited to receive this knowledge knowing that the Network will be equally delighted about it.*

*These links you have provided will be more than enough to get Pacific Islanders curious and excited about regional produce again which we are only too happy to share. Thank-you."* **PIFON (Pacific Island Farmers Organisation Network)**

*"ESAFF Burundi, have managed to train more than 500 farmer households on the importance of eating indigenous food, how nutrients food should be and how the human body is reinforced in terms of the immune system. All these results thanks to your materials you provided to us."* **ESAFF Burundi**
